FORREST KEELING MULTIFLORA ROSE

F. O. B. ELSBERRY, MO.

Prices subject to change without Notice

	Price per 1000 plants	
	500 to 4,900	5,000 up
No. 1 STANDARD — Top quality for farm fencing. Well branched, 15 to 18 inches (before pruning) with root-crown caliper of $\frac{3}{16}$ – $\frac{1}{4}$ inch. Husky and uniform.	\$45.00	\$41.00
FARM UTILITY GRADE — 10 to 15 inches (before pruning). Root-crown caliper $\frac{2}{16}$ – $\frac{3}{16}$ inch. One or two stems and balanced root.	\$29.00	\$26.50
JUMBO Grade — Extra heavy for quick effect. Stocky, 18 - 24 inches (before pruning). Root-crown caliper $\frac{1}{4}$ to $\frac{3}{8}$ inch. Heavily stemmed and rooted.	\$72.00	\$59.00
COUNTRY CLUB Grade — For estate, country clubs, the home lot and similar uses where a stout barrier or screen is desired in the shortest period choose our giant "Country Club" Grade. Top growth 24 inches and up (before pruning). Root-crown caliper $\frac{5}{16}$ – $\frac{1}{2}$ inch.	\$14.20 per 100 plants Fifty plants at \$7.75	

NOTE: Our method of packing makes it possible to place fresh-dug plants in your hands at a most modest shipping charge wherever you may live in the U. S. (Shipping charges to New York, for example, are about 5% of the cost of the plants.) Shipping weights for the several sizes of our Multiflora are approximately as follows:

	Shipping Weight per 1000 plants
Farm Utility Grade _____	20 lbs.
No. 1 Standard _____	40 lbs.
Jumbo Grade _____	80 lbs.
Country Club Grade — shipping weight per 100 plants _____	20 lbs.

FORREST KEELING MULTIFLORA FENCE

Country Club Grade
plant

No. 1 Grade
plants

Samples of two grades of FORREST KEELING MULTIFLORA ROSE. To the left is the giant "Country Club" grade — ideal for developing a quick, strong barrier around the town lot, estate, country home, and similar locations. To the right is the No. 1 size — strictly top quality for farm fencing.

Hugh Steavenson examines a fully-developed 8-foot-high fence. One of the first Multiflora fences ever established, this was planted by him on the U. S. D. A. grounds near Elsberry.

ELSBERRY, MO.

Dear Mr. Landowner:

Do you want the best in Multiflora fencing?

Mr. Landowner, we challenge you to compare FORREST KEELING No. 1 STANDARD multiflora or our JUMBO Grade with any other multiflora fencing available, regardless of price.

Now please note this: Compare the price of our quality stock with any other approaching our plants in size, uniformity, and growth vigor. As growers who ship direct, we have no agents' commissions to pay. Our prices have remained stable for five years. We have managed to offset increasing costs of everything we buy through ever increasing efficiency of operation. Constantly increasing orders have made us the largest commercial producer of Multiflora in America. We have thus succeeded in holding our prices in line while steadily improving the quality of our product.

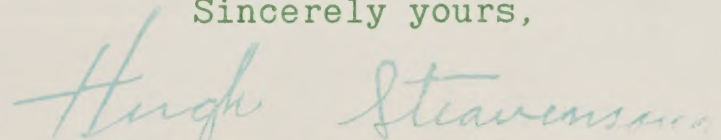

Note our guarantee: Could any provision be more liberal? We could not venture this kind of assurance if we were not confident our plants will thrive for you.

Despite a production much larger than heretofore, our supply of plants is again short of demand.

Every season we have had to disappoint those ordering too late. So order now and we'll see that your plants arrive at proper planting time.

You needn't send a check with your order unless you wish to do so. We'll be glad to ship on open account payable 10 days after receipt of plants if you have established credit with us or if you will supply credit reference.

Sincerely yours,

Hugh Steavenson, Prop.
FORREST KEELING NURSERY

P. S. Ever figure costs of our Multiflora fencing against wire fencing? Rod for rod, our No. 1 plants are half the price of a barbed wire fence and one-third that of woven wire fencing.

You can't afford to gamble with less than the best.
